

MABEL SAMUEL

Rivers, Nigeria

[+2348036607143](#) | mapleberrysamuel@gmail.com | [LinkedIn](#) | [GitHub](#)

Objective

Full-Stack Software Engineer with hands-on experience in frontend and backend development, specializing in Vue.js, React.js, Next.js, Node.js, and Express.js. Proficient in building scalable, user-focused applications with expertise in RESTful APIs, modern JavaScript/TypeScript, cloud platforms, and DevOps tools. Strong collaborator experienced in Agile environments, delivering maintainable code and high-quality solutions across diverse projects.

Professional Experience

Anyskills Inc.

Software engineer

March 2025 - Present

(Remote, UK)

- Took ownership of a major UI refactor initiative that unified design consistency across the app using atomic design principles and a shared component library.
- Collaborated with cross-functional teams, including designers and other developers, to define project requirements, implement feature enhancements, and ensure a seamless user experience.
- Integrated a Django REST API to power key features such as user dashboards, and search functionality, handling data fetching, error states, and client-side caching.
- Enhanced application performance by leveraging best practices in NuxtJs.
- Followed agile development practices including daily standups, bi-weekly sprint reviews, and code reviews, enhancing team velocity and quality assurance.

Ngbukanigeria

Frontend developer(Contract)

May 2025 - August 2025

(Remote, Nigeria)

- Led frontend development for Version 2 of NgbukaNigeria's marketplace platform, translating complex Figma UI designs into production-ready, responsive components using Next.js, TypeScript, and Tailwind CSS.
- Integrated a RESTful backend API to implement dynamic features such as product listings, search filters, authentication, and user dashboards, handling loading states, error boundaries, and conditional UI rendering.
- Built scalable and reusable components, ensuring maintainability and performance through code-splitting, lazy loading, and state management best practices.
- Conducted peer-to-peer code reviews with fellow developers to maintain code quality, share feedback, and improve team collaboration.
- Ensured cross-browser and cross-device compatibility, contributing to a smoother user experience across both desktop and mobile platforms.

Bernode Hub

Frontend Developer Intern

November 2024 - February 2025

(Remote, Nigeria)

- Contributed to the development of responsive and scalable web applications, applying frontend skills to build engaging user interfaces using Tailwind CSS.
- Collaborated with cross-functional teams, including designers and other developers, to define project requirements, implement feature enhancements, and ensure a seamless user experience.
- Enhanced application performance by leveraging best practices in VueJs and NextJs.

Olotu Square Tech Explorer

Python Trainer(Contract)

August 2024 - August 2024

(Port Harcourt, Rivers)

- Taught foundational programming concepts to kids using Python in an engaging, interactive way.
- Designed and delivered beginner-friendly lessons covering variables, loops, functions, and game development.
- Simplified complex coding concepts with real-world examples, hands-on projects, and visual learning tools.

- Encouraged logical thinking and problem-solving through fun coding challenges and exercises.
- Mentored students, fostering curiosity and confidence in programming.

Projects

[Amabilis-e-commerce website](#): Designed and implemented a responsive e-commerce platform using React.js, Tailwind CSS and ExpressJs for authentication. Integrated state management with Context API to handle cart functionality and user authentication. Optimized page load times by implementing lazy loading and efficient component design.

[Teladoc Registration Form](#): Replicated Teladoc's registration form using vueJs and tailwind css.

Ableton website: Collaborated on the design and functionality of a mock website, contributing to frontend layout and interactive features.

Technical skills

Languages: JavaScript (ES6+), TypeScript, Python, Solidity, SQL, HTML5, CSS3, SCSS/SASS, JSON, YAML, Bash

Frontend: React.js, Vue.js, Next.js, Nuxt.js, Angular (basic), Tailwind CSS, Bootstrap, Material-UI, Redux, Zustand, Context API, React Router, Vuex, Pinia

Backend: Node.js, Express.js, Django REST, NestJS (basic), RESTful APIs, GraphQL, WebSockets, JWT/OAuth, Microservices, Serverless (AWS Lambda, Vercel)

Databases: PostgreSQL, MongoDB, MySQL, Firebase, SQLite, Redis, Supabase, DynamoDB, ORM Tools (Prisma, Sequelize, Mongoose, TypeORM)

Testing & QA: Jest, Mocha, Cypress, React Testing Library, Postman, Supertest

DevOps & Cloud: Git, GitHub, Azure DevOps, Jira, GCP (Firebase, Cloud Functions, Firestore), Vercel, Netlify, Nginx, Apache, GitHub Actions

Collaboration & Workflow: Agile/Scrum, Jira, Trello, Confluence, Slack, Notion

Version Control & Build Tools: Git (branching, merging, PRs), NPM, Yarn, Webpack, Babel, Vite, ESLint, Prettier

Education

University of Port Harcourt - Bsc. Human Physiology, 2024

Solearn - Certifications: Tech for Everyone, Python Developer, 2024

Olotu square - Full Stack Development Training
